### ANTI-PARTY BEHAVIOUR AGAINST SITTING MEMBERS OF PARLIAMENT.

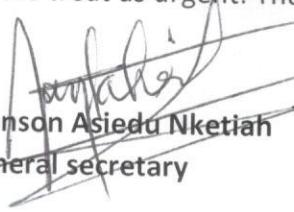

It has come to the attention of the National executive committee of NDC that some individuals who intend to contest for the party's 2024 Parliamentary primaries are going round constituencies with sitting MPs instigating hatred and malice against them. These individuals amongst other things have been alleging that some of our MPs have abandoned the constituencies and prefer to stay in Accra:

The party wishes to take this opportunity to state in clear and unambiguous terms that the work of a member of Parliament involves passage of legislations, oversight responsibilities over the executive and representing the constituency in Parliament. The party wishes to inform its numerous members and sympathizers across the country that it has become necessary for all our 137 members of Parliament to be present in Parliament at all times to perform duties that are extremely of importance to the nation and their constituencies, hence their unavailability to be in the constituencies at regular times as used to be the case.

Members are also to take note that the opening of the period for campaign activities for the party's internal elections are not yet due. Any member who jumps the gun could face sanctions including the possibility of being disqualified from contesting when the time comes.

All party members are advised henceforth to desist from this and any activity that will bring the name of the party to disrepute.

Please treat as urgent. Thanks

Johnson Asiedu Nketiah  
General secretary
