PRESS RELEASE -GLOSARGG

THE ELECTORAL COMMISSION IS ON A DOOM MISSION

The Global Security for Africa Research and Good Governance-GLOSARGG , has keenly noticed the constant unfriendly and partial attitude of the Electoral Commission towards the opposition parties , most especially the National Democratic Congress (NDC) at these crucial times of elections 2024.

GLOSARGG wishes to reiterate that the Electoral Commission's banter with NDC is a clear demonstration of a shaky 2024 General elections which could be a recipe for mayhem if Ghanaians continue to remain passive while worshipping the EC on this doom mission.

The Peace Council and all well-meaning Ghanaians who are singing for peace, this is the moment for them to exhibit their readiness for that peace by calling the EC to order to avoid the opaque processes and go for Free, Fair and Transparent methods of conducting credible elections free of violence.
